SUMMARY

I am 23 years old, from El Salvador, currently living in Valencia, Spain. I am a Software Engineer with experience as a Scrum Master.
I am the creator of **Zukupon**
Since I was 14 years old I have been interested in the world of technology, at the age of 17 I obtained a scholarship to study my degree in Spain. I graduated at 21 years old. Since 2016 I started working as a Scrum master for software projects at the university, since then I am passionate about the world of agile methodologies.
At the moment I work for an important Mercedes Benz project where I am Scrum Master and we use SAFe.

EXPERIENCES

Scrum Master - Mercedes Benz
09/2022 - Ahora

- Scaled Agile Framework (SAFe) is used
- I can perfectly use Service Now to manage the work.
- Work with the Product Owner for the team performance.
- Manage all the ceremonies with the team.

Scrum Master - Capgemini 06/2022

- Performance of dailies
- Proposals for improvements in work organization
- Support teams members
- Complete project documentation

Scrum Master - Uneatlántico
2016 – 2020

- Initially I started developing an app that contained services for students (classroom reservation, contact teachers, access to the virtual campus) for Android system.

- Moved on to the role of project leader of different software projects, performing tasks such as taking requirements, daily meetings, retrospectives, work management.
